SOFTREND
THE SOFA

Design: Janno Nõu
Iseasi

The Sofi series was designed to make people in offices feel more at home. In terms of style it's more fun than your average office furniture, and more slimline and approachable, too. The use of legs (rather than a base) produces a lightness that's both literal and figurative, and invites people to rearrange the poufs around the room to suit themselves. The Sofi series is well-suited to smaller offices, as well as to larger office spaces in greater numbers.
