NEW WAYS OF working

DESIGNERS

Flemming Busk, architect MAA, MDD
Stephan Hertzog, designer AD, MDD

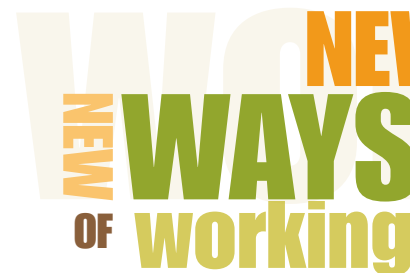

Winners of several Red Dot Product Design awards, IF product Design awards, Danish Furniture Prize 2008 and tripple 2009 Design Award of the Federal Republic of Germany Nominee.

Vindere af flere Red Dot Produkt Design priser, IF Produkt Design priser, Møbelprisen 2008 samt nomineret tre gange til Design Prisen 2009 af den tyske regering.

NEW WAYS OF WORKING

Technological progress has greater and greater influence on what we do – at work and at home. Trends seen in recent years within the office environment show an increasing use of technical advances, plus a more democratic organisational culture. The new technology and new forms of organisation are designed to provide enterprises with greater flexibility, give their employees greater motivation, make better use of available space and thus boost productivity.

Teknologiske fremskridt får hele tiden mere og mere indflydelse på vor dagligdag - i hjemmet såvel som på arbejdet. De seneste trends indenfor kontorarbejde viser en stigende tendens mod brug af dels de teknologiske fremskridt såvel som en mere demokratisk organisationsopbygning. Dette giver de enkelte virksomheder en anden organisationsform end tidligere set med en meget større fleksibilitet herunder også en større motivation fra den enkelte medarbejder. Resultatet ender ud i en større produktivitet.

DESK ING

A range of desking and sit/stand desks with matching storage and conference/meeting tables. The feature of the desks apart from the shaped edging on the desk tops is the round tube legs either in black or chrome with chrome feet. The desks are also available in call center versions for either 3, 4 or 6 people.

En serie af skriveborde og sidde/stå borde kendetegnet ved en flot affaset kant på alle bordplader samt runde ben: Sort lakerede eller i krom. Alle fødder er i krom. Bordene kan endvidere leveres i call center versioner til henholdsvis grupper af 3, 4 eller 6 medarbejdere.

SWITCH

design by busk+hertzog
