

Pato Sledge Barstool

Designed By Welling / Ludvik, 2013

Pato is a versatile chair concept based on a shell in 100% recycled polypropylene, which is also available with seat upholstery or fully upholstered, and with a wide range of bases. Pato Barstool features the same shell as the chair, and comes in either bar or counter height. Keeping material flows as clean and recyclable as possible, the Pato components are kept homogeneous to a degree where they can be recycled in the future as needed.
