- Stackable on trolley up to 20 pcs. without upholstery | 5 pcs. with upholstery
- Suitable for a wide variety of private and public environments
- Qualified for contract use

AAC 08 DESIGN BY HEE WELLING

About A Chair AAC 08 features an open frame in bent steel that adds lightness to the intuitive design. Its upright, yet rounded shell combines functional stackability with great comfort and an inviting expression. The open sled frame is available in different powder coated finishes, with the post-consumer recycled plastic shell offered in numerous colours and front upholstery options, making it a flexible and functional chair suited to a wide variety of domestic, office, and public settings.

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. The son of a cabinetmaker, Welling's fascination with production techniques, materials, and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts. Centred around the idea of creating technically accomplished products that can reach a wide audience, his designs are characterised by a great sense of proportion and quietly elegant aesthetics. Welling has received a number of design awards, including the Bo Bedre Award (Denmark), Good Design Award (USA), and has been nominated as Danish designer of the year in 2013 and 2014. For HAY, Welling has designed the About A series and the Hee Chair, Lounge Chair, and Bar Stool.

COLOUR & FINISH

Please note that the colours are indicative

SHELL

BASE

The shells consist of 100% recycled post-consumer plastic from household machines. The use of recycled material means that colours vary slightly from batch to batch. Marks and irregularities on the surface are a natural part of the material and may occur.

Does not apply to CMHR foam.

INDOOR ADVANTAGE™ GOLD

Supports a healthy indoor environment.
Confirms to ANSI/BIFMA standards.

EN TEST

EN 16139 - L2

Non-domestic seating

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
