Collaboration Zone

Concentration Zone

Designed for the Collaboration and Concentration Zone:

- Give the option of focus and seclusion
- Hold your own private meeting
- Divide your space organically
- Cut down on background noise

Looking for the perfect spot to have that important conversation?

The August sofa set provides an easy solution for creating a workbay where you can go to get some privacy or have meetings. The August Workbay is an integral part of your Concentration Zone, providing an opportunity to step away from the noise, and find the focus you need.

The only thing it takes is to connect two roofed Augusts with a partition wall. Sound-absorbing qualities make it easy to carve out a space of peace and quiet within an open-plan office. Distraction-busting high sides give you the focus you need to unravel a tricky problem with a colleague. Its compact and modular style means that the Workbay can be placed in islets, rows, or whatever works best for your Concentration Zone.

Shut the world away, and unlock your productivity.
