## BESSI CHAIR.

Bessi is a light, stackable chair. The chair was designed by the Icelandic designer Erla Sólveig Óskarsdóttir in 2000.

The compact, yet feather light, expression of Bessi unites minimalistic design and comfort. The frame offers an integrated armrest and connects the primary elements, ensuring durability and stability. With its all-around qualities, it is well-suited for numerous settings, private as well as public.

The shell of the Bessi Chair comes in either oak or walnut veneer or in black or white plastic and can be delivered fully upholstered, with seat upholstery only, or without upholstery. Bessi can be upholstered in fabric or leather. The frame is available in chrome, satin chrome or painted steel in multiple colours.
