DYNAMIC

an introduction

Created by Claus Brandt-Jakobsen, CHAT BOARD® Dynamic bridges the gap between essential workspace fittings and full-fledged furniture in an ingenious framework design, developed to provide flexible, free-flowing, and multifunctional dimensions to professional, educational, and creative spaces.

Timeless and adaptable by nature, Dynamic was built to accommodate a working world of a digital age, but it was shaped by a profound appreciation of the fundamentally human need to express itself through analogue means.

The Dynamic collection carefully translates two key themes and two base varieties into four different self-contained units, each offering a series of features and functions that allow it to stand proudly and purposefully on its own, or to partner up with one or more companions to sculpt and define changeable spaces within spaces.

Inviting architects and space planners to create individual and bespoke solutions, Dynamic offers a wide range of combinations, spanning across a variety of materials, finish textures and colour options.

Sustainability is at the heart of the CHAT BOARD design philosophy, and each component and raw material of the Dynamic product offering has been carefully sourced to reduce the carbon footprint across each stage of the manufacturing process.

With equal focus on minimising environmental impact, the Dynamic units are delivered as separate components (frame, panels, glass boards, shelves), which are easily assembled on site.

DYNAMIC

Wood Acoustic

(1) Frame:

White spruce: matt white pigmented PU lacquer
Black spruce: matt black PU lacquer (RAL 9005)
Oak: matt PU clear coat lacquer
 Wood specifications also apply to the wooden slats*
 All wood is FSC certified

(2) Slats & acoustic felt:

***Slats:** see above
 The wooden slats are 10 mm thick and 40 mm wide
Felt: 9 mm AQsorb acoustic felt, made from 100% recyclable PET, incl. 90% recycled PET from marine debris (plastic bottles)

(3) Feet:

Powder coated aluminium (RAL 9003 or RAL 9005)

(4) Casters:

4 x Ø75 mm soft casters with brakes
 (white/grey or black/black)

(5) Glass board:

4 mm tempered safety glass according to highest quality standards, finished with unpolished, C-shaped edges and 4 mm radius corners
 The glass is available in 25 colours, and the surface is both magnetic and writable
 Steel back plate with bent edges for easy mounting

Item no.	Product	Description	Colour	Dimensions	
(1) FRAME			wood	W x H x D mm
