# Council Family Salon Chair w/ 4-Legged Base

The Council Family Salon Chair is a chair for every moment, and almost every setting one can think of. Its impeccable sitting experience is a result of the elegant shape, compared with a four legged steel base available in black or graphite powder coating. It's made for comfort whether at the dining table, meeting room or any waiting situation. The elegant shape of the chair can be accentuated by upholstering the interior and exterior surfaces in different colours or materials. The toes are specially cast and can be customized to suit different types of flooring.

## Technical information

### General Info
