# TECHNICAL DATA

## Material

Rotation moulded polyethylene, 6-7 mm thick, dyed. Moulded in one piece. UV-resistant, stands up to weather, wear and tear. The material is suitable for granulation and recycling.

## Surfaces and friction

The products have a textured/granulated surface due to abrasive blasting of the mold. This process enhances the friction and makes the surface less slippery.

## Authentication

TÜV approved as playground equipment acc. EN1176.

## Dimensions

One module: R1350mm, H400mm, Width (cross section): 400mm.

Volume: 300 litres. 3 x modules (circle): outside diameter: Ø2700 / inside diameter Ø1900mm. 8-10 seats inside / 12-14 seats outside. In the centre playground for 4-5 children.

## Combinations

Form Loop Arc like an "O" (circle, 3 modules), like a "C" (2 modules), or like a "S" (2 or more modules). Also combine Loop Arc with Loop.

## Assembling & fixation

The modules are joined with brackets (B4) at either end. Fill them 3/4 with water (225 liter) / sand (225 kg) or fasten them to the ground. Brackets to be ordered separately.

## Recycled and ecolabelled\*

Recycled version is made from 100% recycled polyethylene plastic, of which 85% comes from internal waste and production surplus, while 15% comes from polyethylene bags.

Recycled version is ecolabelled, promoting circular economy and fulfils UN's sustainable development goal no.12 - Responsible consumption and production.

Recycled version is available in anthracite variant, yet colour can vary from order to order.

## Maintenance

This product withstands most cleaning agents and chemicals and can be cleaned using a high-pressure cleaner. The colour can be revived using vinyl cleaner or similar.
