## LOOP PLAYFIELD # 174

Loop Corner and Loop Line can be combined to create permanent or temporary ball courts for urban spaces and schoolyards or to delimit a space. Like the rest of the Loop family, they invite passers-by to sit, chat and observe urban life.

# TECHNICAL DATA

## Material

Rotation moulded polyethylene, 8 mm thick, dyed. Moulded in one piece. UV-resistant, stands up to weather, wear and tear. The material is suitable for granulation and recycling.

## Surfaces and friction

The products have a textured/granulated surface due to abrasive blasting of the mold. This process enhances the friction and makes the surface less slippery.

## Authentication

Loop Line and Corner are TÜV approved as playground equipment acc. EN1176.

## Dimensions

Loop Playfield is composed from Loop Line and Loop Corner modules.  
 Loop Line: L2000 x H400mm / Volume: 240 liter.  
 Loop Corner: L1400xW1400mmxH400mm / Volume: 250 liter

## Combinations

Loop Line and Loop Corner can be combined to create many different sizes of ball courts.

## Assembly and fixation

The modules are joined with brackets (B4) at either end. Brackets are included.

For ground fixation use B2 (Loop Corner) + B5 (Loop Line).

For surface fixation use B3 (Loop Corner) + B6 (Loop Line).

Fixation brackets are to be ordered separately.

## Recycled and ecolabelled\*

Recycled version is made from 100% recycled polyethylene plastic, of which 85% comes from internal waste and production surplus, while 15% comes from polyethylene bags.

Recycled version is ecolabelled, promoting circular economy and fulfils UN's sustainable development goal no.12 – Responsible consumption and production.

Recycled version is available in anthracite variant, yet colour can vary from order to order.

## Maintenance

This product withstands most cleaning agents and chemicals and can be cleaned using a high-pressure cleaner. The colour can be revived using vinyl cleaner or similar.
