Making room for personality

Montana

WHAT ARE YOU CREATING?

**If your answer is *solutions*,
it's an ending.**

**But if you answer:
I am creating possibilities,
it's an opening.**

Designer and Founder, Peter J. Lassen

Don't judge a colour by its colour

Every 8th year, Montana introduces a fresh, new colour palette. This year, we've created 30 new nuances in close collaboration with designer and colour alchemist, Margrethe Odgaard.

Creating the new colour palette has been a careful and thorough creative process and the result is a range of poetic and complex colours, all created to appeal to both your visual sense and your emotions.

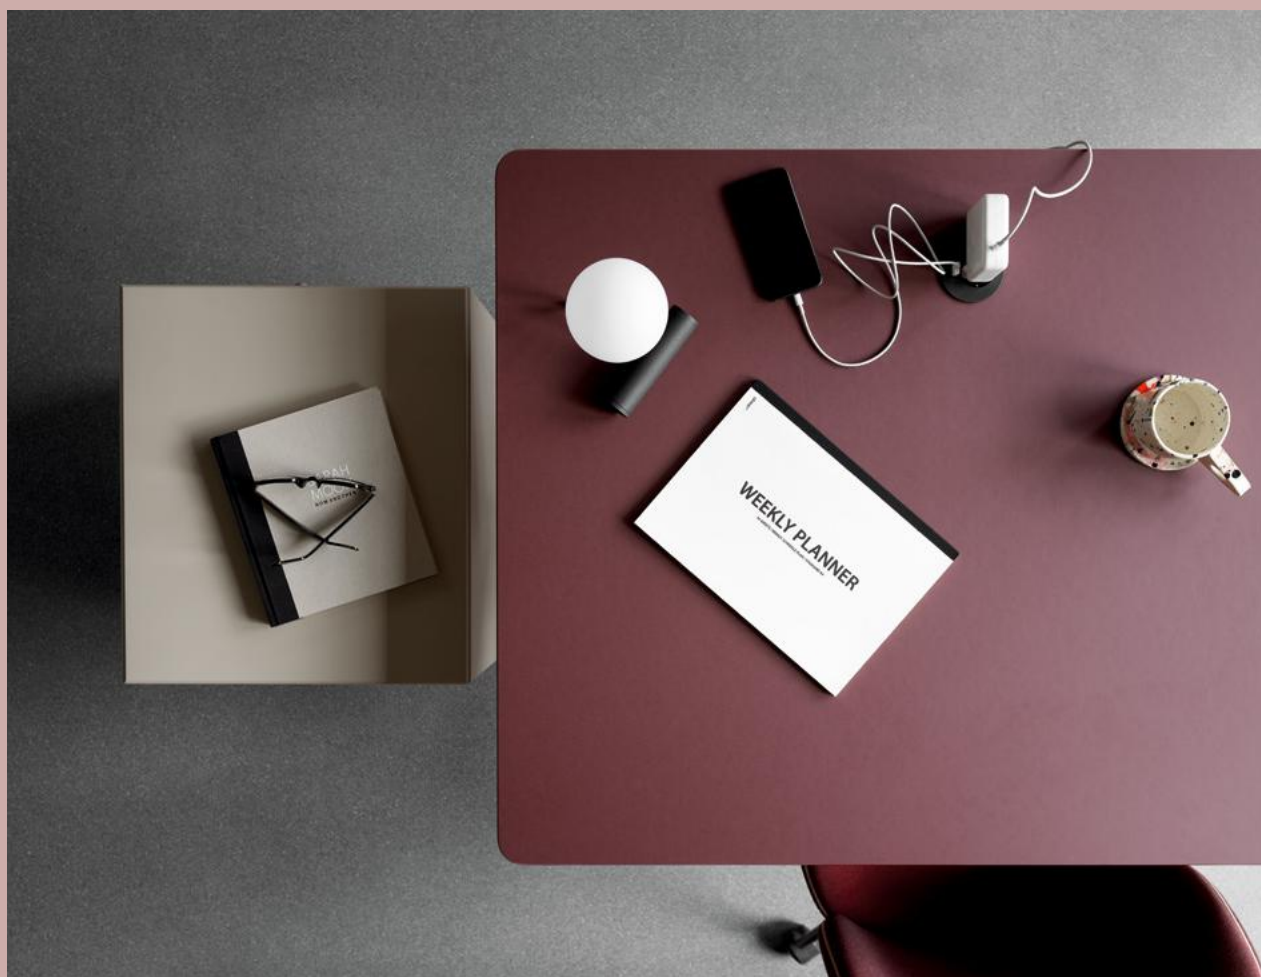

COLOURS ARE NEVER STATIC, NEVER BORING, NEVER QUITE THE SAME

Which is why we're inviting you to not judge a colour simply by its colour. The tones in the palette are changeable, deep and nuanced. They interact with sunlight, with other colours in their surroundings, with all the items you add to them – and they can take on very different appearances depending on where you place them.

Adding the 30 new tones to our classic palette, we're presenting a total of 42 variants to choose from. All colours are related in a close-knit family, so you can combine them any way you like and always get a match – living up to our core philosophy of always giving you the freedom to express who you are.

A colour is no better *than the company it is in*

WORKING IN COLOURS

Expressing yourself is what Montana is all about. We want to give you endless opportunities to create, frame and tell your company's story through clever design and superior craftsmanship – and colours, 40 environmentally-friendly water-based lacquer colours to be exact.

Schaffen Sie Platz für Ihre Persönlichkeit. Montana ist gleichzusetzen mit Ihrem individuellen Ausdruck. Wir wollen Ihnen endlose Möglichkeiten dazu bieten, Ihre persönlichen Geschichten durch cleveres Design und hervorragendes Handwerk zu erstellen, zu unterstreichen und zu erzählen.

MODULAR SEATING
