

NEWLINE

DENCON

Newline is a flexible pedestal table designed for various settings – from café areas and lounge spaces to meeting rooms and conference facilities. It is available with both round and square tabletops, where the square version features a 100 mm radius for a softer expression.

The frame comes in four heights – 55, 72, 88, and 108 cm – making it suitable as a coffee table, café table, or high table. The base plate is available in two sizes: 420 mm for tabletops under 1000 mm and 600 mm for tabletops from 1000 mm and up. The frame is available in Black and Alu and a unique RAL, while tabletops can be chosen in all Dencon veneer, HPL, and linoleum variants.

Frame

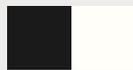

Option for a unique RAL code with a minimum purchase of 10 units.
