# Stitch

Design Stefan Borselius

Inspirerad av soffor, kuddar, filtar och dunjackor har formgivaren Stefan Borselius tillsammans med Abstracta tagit fram skärmen Stitch. Kombinationen av de olika materialen i skärmen adderar ytterligare bra akustiska värden.

Inspired by sofas, cushions, rugs and padded down jackets, designer Stefan Borselius has worked alongside Abstracta to develop the screen Stitch. The combination of different materials in the screen adds further acoustic values.

Skärmen består av en trästomme med ett fodral av ljudabsorberande fiberfyllning klätt med ett tyg med sydda rutmönster.

The screen consists of a wooden frame, with a cover made of sound absorbing fibre filling upholstered with thick lined fabric with embroidered check patterns.

Benen är tillverkade av lackad ask och har likt skärmen ett mjukt formspråk.

The legs are made from lacquered ash, and have, similar to the screen, a soft expression.

Skärmens tjocklek och uppbyggnad gör Stitch till en mycket bra ljudabsorbent. Den både absorberar och dämpar ljud.

The thickness and structure makes Stitch an excellent sound absorber. It both absorbs and attenuates soundwaves.
