DESIGN & PRODUCTION

Savir Design A/S

DESCRIPTION

GATE VIP and STUDENT 9590 stools are excellent supplements for STUDENT chairs for educational environments.

GATE VIP is a stool with movable seat that prevents a static seat extension and prevents and relieves back pain. The seat is tilting 360°. GATE VIP is ideal for schools and institutions, but is also perfect for offices, clinics, at package tables, laboratories etc.

STUDENT 9590 stool has a 5 star footbase with castors and height adjustment.

♻️ All components of the product can be disassembled and replaced or source sorted and recycled to reduce the consumption of raw materials in production and thus contribute to the sustainable management of the earth's resources. Savir Design receives all used Savir products for recycling at the end of its life cycle to promote the circular economy and thus reduce the overall environmental impact of production and consumption.

MATERIALS

Fabric:

GATE VIP: Black Steelcut Trio

STUDENT 9590: Large selection of fabric

Polyshell (Student 9590):

Polypropylene - non-slip surface - ergonomically designed and easy to clean. Integrated grip handle in the back.

The plastic shell is made of recycled materials. Produced and certified in accordance with DIN EN ISO 9001: 2008 and DIN EN ISO 50001:e

Frame (Student 9590):

Swivel base of 30% fiberglass-reinforced PA for higher strength and longer durability.

Castors in PA with soft lanes DIN ISO 12529.

All materials are selected for 100% recycling.

Manufactured according to DIN ISO 9001 and BIFMA tested.

Base(Gate VIP):

Nylon with fiberglass-reinforced and aluminium

Wood:

Wood components included in versions of STUDENT are all of FSC-certified wood.

STANDARD COLOURS ON SEAT (MODEL 9510)

■ Black Steelcut Trio

STANDARD COLOURS ON FRAME

■ Black

ENVIRONMENT

Savir Design is among the leading furniture manufacturers concerning environmental and climate-oriented furniture production. The materials we use in production are carefully selected, and our range of furniture produced from recycled materials is growing rapidly.

All steels in production are RoHS Directive No. 2011/65/EC and REACH Directive No. 2002/95/EC, and aluminum frames are made of up to 100% recycled aluminum. We use environmental chrome coatings complying with the standards for lacquer coating (DS/EN ISO 1456) and thereby eliminating any risk of nickel allergy.

For all wooden shells and seat pieces in the chair production only FSC-certified wood is used, which i.a. provides a guarantee that no more trees will be felled than the forest can reproduce. The plastic materials used are produced in accordance with the limits of PAK (polycyclic aromatic hydrocarbons) - a selection is produced wholly or partly from recycled PP.

We also offer several sustainable types of fabric, which are made of up to 100% recycled polyester that is produced from plastic granules from plastic bottles.

In addition, we guarantee a long life for each individual product. Once the used furniture has served its function, it can be returned to Savir Design for recycling. In this way, we save on the earth's resources and ensure that our products remain part of the circular economy.

WARRANTY

Savir Design provides a 5-year warranty on STUDENT.

The warranty covers damage to the frame and damage caused by inadequate workmanship in normal use. Wear or damage to covers, surfaces, castors and the like is not covered by this warranty.

TEST

(The complete test can be downloaded on www.savirdesign.dk)

Gate VIP has been tested for durability at the Catas Testing Certification Research.
