DESIGN & PRODUCTION

Savir Design A/S

DESCRIPTION

The STUDENT chair for classrooms and educational environments.

The STUDENT chair comes as standard with seat/back in 100% recycled PP. Seat upholstery is available in fabric group 0-4. Castors in polyamide and soft lanes DIN iso 12529. Footbase in polyamide and 30% reinforced glassfabric for optimal resistance

 All components of the product can be disassembled and replaced or source sorted and recycled to reduce the consumption of raw materials in production and thus contribute to the sustainable management of the earth's resources. Savir Design receives all used Savir products for recycling at the end of its life cycle to promote the circular economy and thus reduce the overall environmental impact of production and consumption.

 STUDENT 9500 and YOUNG STUDENT 9501 with black shell and black footbase are granted with the EU Ecolabel.

MODEL 9500

Height	41-54 cm
Width	43 cm
Depth	44 cm
Seat width	43 cm
Seat depth	44 cm
Weight	6,2 kg

MODEL 9500 WITH HIGH GAS LIFT

Height	55-81 cm
Width	43 cm
Depth	44 cm
Seat width	43 cm
Seat depth	44 cm
Weight	10,3 kg

MODEL 9501

Height	41-54 cm
Width	36 cm
Depth	35 cm
Seat width	36 cm
Seat depth	35 cm
Weight	6,0 kg

ACCESSORIES

Tilt/flex function
Aluminum swivel base
Glides
Seat upholstery
High gas lift with footring
Writing plate

MATERIALS

Polyshell:
Polypropylene - non-slip surface - ergonomically designed and easy to clean.
Integrated grip handle in the back.
The plastic shell is made of recycled materials.
Produced and certified in accordance with DIN EN ISO 9001: 2008 and DIN EN ISO 50001:e

Frame:

Swivel base of 30% fiberglass-reinforced PA for higher strength and longer durability.
Castors in PA with soft lanes DIN ISO 12529.
All materials are selected for 100% recycling.
Manufactured according to DIN ISO 9001 and BIFMA tested.

Wood:

Wood components included in versions of STUDENT are all of FSC-certified wood.

ENVIRONMENT

Savir Design is among the leading furniture manufacturers concerning environmental and climate-oriented furniture production. The materials we use in production are carefully selected, and our range of furniture produced from recycled materials is growing rapidly.

All steels in production are RoHS Directive No. 2011/65/EC and REACH Directive No. 2002/95/EC, and aluminum frames are made of up to 100% recycled aluminum. We use environmental chrome coatings complying with the standards for lacquer coating (DS/EN ISO 1456) and thereby eliminating any risk of nickel allergy.

For all wooden shells and seat pieces in the chair production only FSC-certified wood is used, which i.a. provides a guarantee that no more trees will be felled than the forest can reproduce. The plastic materials used are produced in accordance with the limits of PAK (polycyclic aromatic hydrocarbons) - a selection is produced wholly or partly from recycled PP.

We also offer several sustainable types of fabric, which are made of up to 100% recycled polyester that is produced from plastic granules from plastic bottles.

In addition, we guarantee a long life for each individual product. Once the used furniture has served its function, it can be returned to Savir Design for recycling. In this way, we save on the earth's resources and ensure that our products remain part of the circular economy.

WARRANTY

Savir Design provides a 5-year warranty on STUDENT.

The warranty covers damage to the frame and damage caused by inadequate workmanship in normal use. Wear or damage to covers, surfaces, castors and the like is not covered by this warranty.

TEST

(The complete test can be downloaded on www.savirdesign.dk)

STUDENT has been tested for durability at the Danish Technological Institute.

Test Report
Report No.: 731290-2

Assignor: Savir Design A/S
Elskovsmønstret 12
DK-7100 Vojens

Subject: Model: Gate Student

Type:	Chair
Length:	500 mm
Width:	520 mm
Height:	840 mm
Weight:	5.6 kg
Material:	Plastic shell, 5 star metal foot

Method: EN 1729-1:2015 Furniture - Chairs and tables for educational institutions - Part 1: Functional dimensions. Measured according to table A.1.
EN 1729-2:2012+A1:2015 Furniture - Chairs and tables for educational institutions - Part 2: Safety, requirements and test methods. Loading according to EN 1729-2:2012+A1:2015 Impact test.

Result: Model Gate Student fulfils the requirements in EN 1729-1:2015, Table A.1 and the requirements in EN 1729-2+A1:2015.

Note: Individual results appear from Appendixes 1 and 2.

Storage: The test material will be returned after 1 month, unless otherwise agreed.

Terms: The accredited test was carried out according to DANAK's general conditions and according to the Danish Terms and Conditions regarding Commission work accepted by the Danish Technological Institute, which apply at the time of signing this agreement. The test is only valid for the tested specimen. The test report may only be extended, if the customer has approved the method.
