

Environmental Product Sheet

Spine Lounge Suite Chair Petit, 1711

Design story of the product

Spine Lounge is designed for lounge areas in places such as gourmet restaurants, where the furniture must match a culinary or professional quality experience and at the same time serve as the setting for a social and relaxed atmosphere. The furniture is designed in a casual style with open sides, without armrests – combined with a generous use of materials and subtle upholstery details.

Company description

Since 1911 the core of Fredericia's company ethics has been to encouraging customers to buy fewer but better products. With the ultimate goal of creating furniture's that become more beautiful with age and can be passed from generation to generation. These core values are rooted in our sense of responsibility, seen in our use of natural materials, our ethical methods of production and our respect for the people using our furniture every day.

Supplier support

Through our ongoing implementation of Sustainable supplier selection and Code of Conduct, we ensure that our suppliers meet our conditions regard to human rights and environmental standards among other things.

Design for environment criteria

In the phase of developing new products or re-engineering existing products Fredericia Furniture follows the below listed principles:

- Timeless design
- Long material lifetime
- Crafted to last
- Easing disassembly of products to increase circularity and ease repair of broken parts
- Increase the use of recycled materials

Material declaration

Legs of solid wood. Wooden seat shell of moulded plywood. The cushion in CMHR or HR foam. Available in fabric or leather, with piping in all stitches. Cushions are kept in place with Velcro fixtures and are removable for cleaning.

Environmental data

The whole product incl. packaging material

Recycled content: 13%

Virgin content: 87%

Life cycle assessment data

The Climate footprint = **160 kg of CO₂e** in a level 2 screening validated by the Danish Company, Målbar. This result is based upon the lowest emitting variant of the model and is Målbar's estimate on the outcome within the boundaries of 130 – 200 kg of CO₂e.

The CO₂e accounts for carbon dioxide and other gases e.g., methane and nitrous oxide. The screening complies with the European LCA-rules PEF (Product Environmental Footprint) meaning that it covers the whole product life cycle incl. extrusion of raw materials to end-of-life handling.

Environmental Certifications

FSC® certified

Test

EN 15373:2007 (L2)

Warranty

Fredericia Furniture A/S offers a 7-year guarantee against manufacturing defects in standard products (materials and construction). The warranty does not cover wear and damage to covers, surface treatment, inappropriate use and the like.

Disclaimer

Disclaimer:

The Climate footprint assessment is based upon delivery to an average EU customer and a 15-year lifetime. Be aware of the variety of assumptions when comparing different life cycle assessments from different companies as the level of detail can vary. This document is not third-party validated, and the communication is only intended for B2B customers.

Content Declaration

The charts below describe the materials used in the product.

MATERIAL	MASS [KG]	SHARE	CONTENT
Veneer	15	62%	Virgin
Foam	3,7	15%	Virgin
Glue	2,1	9%	Virgin
Wood	1,3	5,4%	Virgin
